PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong interest in Web Development, Artificial Intelligence, and Data Analytics. Passionate about building impactful digital solutions and continuously expanding technical expertise through hands-on projects, internships, and emerging technologies.

EDUCATION

MIT Art, Design and Technology University

(B.Tech) – Computer Science Engineering (CGPA: 8.48/10)

Pune, India

2023 – 2027

SNBP International School

CBSE Board (Class XII) – Percentage: 66.4%

Pune, India

2021 – 2023

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Web Technologies: HTML5, CSS3, JavaScript, Node.js

Data Analytics & BI: Tableau, Power BI

Databases: MySQL, Supabase

Developer Tools: GitHub, VS Code, Google Colab

Design Tools: Figma

Core Concepts: Data Structures, Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, UI/UX Design, Data Visualization

PROFESSIONAL EXPERIENCE

SkillCraft Technology

Web Development Intern

Remote

Jun 2025 – Jul 2025

- Developed responsive and interactive web applications using HTML, CSS, and JavaScript.
- Implemented user-friendly interfaces and optimized application performance.
- Collaborated with development teams to deliver scalable and accessible solutions.
- Gained practical experience in debugging, deployment, and front-end development workflows.

PROJECTS

AI Gym Management System | HTML, CSS, JavaScript

Nov 2025

- Developed an AI-powered fitness platform that provides personalized diet and workout recommendations based on user goals and requirements.
- Integrated AI APIs to enable intelligent chat assistance and deliver customized fitness guidance in real time.
- Built a responsive and user-friendly interface, with planned enhancements including goal tracking, rewards, and business onboarding features.

AI Preventive Healthcare System | Python, ML, React, Supabase

May 2026

- Developed an AI-powered healthcare platform for real-time health monitoring using wearable devices.
- Built machine learning models to classify health conditions and generate personalized risk assessments.
- Implemented features such as doctor report sharing, emergency alerts, and health analytics for proactive healthcare management.

Personal Portfolio Website | HTML5, CSS3, JavaScript, Node.js

Jul 2025

- Designed and developed a responsive portfolio website to showcase projects, certifications, and technical achievements.
- Applied modern UI/UX principles to create an engaging and accessible user experience across devices.
- Optimized website performance and implemented responsive layouts for desktop and mobile platforms.

CERTIFICATIONS

- Data Modeling in Power BI – Coursera (Microsoft)
- Introduction to Tableau – Coursera (Salesforce)
- Programming for Everybody (Python) – Coursera (University of Michigan)
- What is Data Science? – Coursera (IBM)
- Computational Thinking for Problem Solving – Coursera (University of Pennsylvania)
- Introduction to Cybersecurity – CISCO Networking Academy

LANGUAGES

English, Hindi, Marathi
